Principal Product Designer @ Titan, ex-Zeta. With almost 9 years of experience, including 5 years in fintech. My journey began as a motion design specialist before evolving into a multidisciplinary product designer. My passion lies in core product design, delightful interaction design, and motion systems

experience

Titan (Internal Switch)

Principal Product Designer

Now - Bangalore, India

Leading end to end feature initiatives and systematizing interaction design across Titan Email

Sole product designer on a new, unannounced offering in the personal digital identity building space, partnering directly with the CEO to shape product direction

Joined Titan via an internal transfer between sister companies (same founder as Zeta), stepping into a role aligned with my design skill set

Zeta

Principal Product Designer

2021 - 2026 (5 yrs)

Bangalore, India

Led end-to-end product design for Zapp Account, working directly with the CEO on product direction and design reviews, drove stakeholder alignment, cross-functional execution, and design delivery with a small team

Co-led growth initiatives across PayZapp, identifying new opportunities and designing experiments to improve user acquisition, activation, and engagement

Led cross-functional efforts to establish interaction and motion implementation standards, improving collaboration between design and engineering while raising experience quality across the app

Helped shape the team's AI-assisted design workflow by identifying practical use cases, leading discussions, and driving adoption across the design process

GeeksforGeeks

Senior Motion Graphic Designer

2018 - 2021 (3 yrs)

Noida, India

Handled motion and product design for GeeksforGeeks Courses and Portal

Created motion graphics for marketing videos and campaigns.

Established GeeksforGeeks' design function from scratch as the founding designer
